Prospective students invited to learn about majors, apply and ask questions

QUEENSBURY, New York (Feb. 3, 2026) — SUNY Adirondack invites prospective students to learn more about the college at a special Meet the Faculty event at 1 p.m. Wednesday, Feb. 18.

Attendees can ask questions from a panel of professors; take a campus tour; apply for same-day acceptance; and speak with members from the college's admissions office.

Faculty members will be available to answer questions about what to expect in majors at SUNY Adirondack, careers, coursework and more. (Questions can be submitted in advance during registration or asked at the event.)

After the question-and-answer period, faculty will be available to meet with participants individually. Representatives from SUNY Adirondack's College Access office will also answer questions and offer assistance.

“This is a great opportunity to learn more about SUNY Adirondack, and see if it's a good fit for you,” said Jenny Postlethwaite, director of College Access and Student Success. “And what better way to get an idea of what class will be like than meeting our professors?”

Faculty members in attendance will include John Arpey, J.D., professor of Business; Chef Matt Bolton, Culinary Arts instructor; Kim Hedley, Ph.D., Health Sciences Division chair and professor of Nursing; Jill Lloyd, associate professor of Mathematics, and Math, Engineering and Computer Science Club advisor; Amy Macaluso, associate professor of Biology; Jon McCarthy, assistant professor of Sociology and Criminal Justice advisor; Nick Paigo, professor of Graphic Arts and Media Arts Club advisor; and Mark Strohmaier, associate professor of Computer Science and chair of the TECS division.

This free event is open to the public, but registration is required
